

Report on Teacher Corps Training Workshop

May 13~18, 2016
MITC, National Campus
College of Micronesia–FSM

Prepared by
Rafael A. Pulmano, CPA, MBA
Professor, Business Division

Introduction

In Spring 2016, Professor Robert Andreas approached and requested this instructor/resource speaker to conduct another workshop for the Teacher Corps students. As the end of the semester approached, an agreement was reached to proceed with the workshop for four consecutive weekdays, starting Friday, May 13. At the end of the workshop, the participants would be able to use the Microsoft Excel spreadsheet in developing electronic grade books or e-records designed to capture data which could then be used for assessing student learning outcomes.

Participants

On May 11, 2016 Josephine Kostka emailed the following names of those who would participate in the Teacher Corps Training Workshop:

1. Abraham, Ashly
2. Alexander, Stephanie
3. Donre, Winner
4. Eliou, Tricia
5. Fredrick, Christopher
6. George, Saleen
7. Gilmete, Jessica
8. Gilmete, Nickita
9. Ioanis, Eiko
10. James, Jvida
11. Marlir, Drexler
12. Melander, DeBrum
13. Olter, Michelle
14. Paul, Brenda
15. Picky, Juntwo
16. Sam, Kamleen
17. Santos, Kenoma
18. Sehpin, Masaleen
19. Sighrah, Lynnsey
20. Tom, Amyleen
21. Tommy, Lilibeth
22. Werelmar, Melody
23. Wichep, Pelva
24. William, Perdania Rose
25. Yarowe, Christian

Methodology

The workshop was divided into two parts, with each part divided into different sessions.

Role Playing. In the morning, participants engaged in classroom role-playing activities. They assumed the role of students in an accounting class, while the resource speaker took on the role of accounting instructor. As students, they signed the attendance sheet, read/study lesson handouts, listened to lectures, asked questions, participated in class discussions, prepared assignments, and took tests.

Hands-On. Afternoon sessions were devoted to hands-on training of participants in the development of e-records using Excel. Each participant brought a laptop for this purpose.

Data Processing. The data outputs from the activities in the morning sessions served as data inputs for the e-records being developed in the afternoon sessions. For example, attendance taken in the morning is entered in the attendance record of the electronic grade book.

Coverage

The following outline shows the extent and limitations of the topics and related activities covered during the workshop to achieve the desired student learning outcomes.

DAY 1 – FRIDAY

Morning Sessions

Sign-up – Attendance sheet (AM)

Warm-up activity – Students were given instruction to email to pulmano@comfsm.fm their answers to the following questions:

- Write a short introduction about yourself.
- What do you expect to learn from this workshop?
- Share what you know or think about "assessment of student learning outcomes."

Pretest – True or False questions in basic accounting (30 items)

Distribution of lesson handouts and giving of assignments

Lecture/discussion – SLOs #1, 2, and 3

- Introduction to accounting
- SLO 1 - Define accounting and related terms.
- SLO 2 - Explain who uses accounting information.
- SLO 3 - Identify three forms of business organizations and three types of business operations.

Checking of papers

Lunch Break

Afternoon Sessions

Sign-up – Attendance sheet (PM)

Hands-on activities

- Create a Students List Table in Excel
 - Add columns for student demographic data
 - Enter student data
- Create Demographic tables and charts in Excel
 - By gender
 - By age
 - My major
 - By state
- Create Attendance Record in Excel
 - Link worksheet to Students List page
 - Enter attendance data

DAY 2 – MONDAY

Sign-up – Attendance sheet (AM)

Quiz #1 (coverage – previous day's lessons)

Checking and grading of Quiz #1

Recording of Quiz #1 Results in Attendance Sheet

Text reading & Assignment – Answer the following questions:

- Identify and explain each of the basic accounting elements.
- Why is good health not an asset in accounting?
- What is the major difference between the assets Equipment and Supplies?
- Why is firing an employee not considered to be a transaction?
- Bill Taylor has two businesses. Does the business entity concept state that Bill should combine both businesses into a single entity for accounting purposes? Explain your answer.
- Which of the following are business transactions? (a) paid salaries, (b) hired an employee, (c) received cash for services performed, (d) the owner paid her home electric bill from her personal checking account.
- Explain the dual effect in accounting.

Lecture/discussion - SLO #4, 5, 6, and 7

- Define and describe the elements of accounting.
- State the accounting equation.
- Define business transaction.
- Record business transactions in equation form.

Class work - Students to finish illustrative problem in SLO #7 (Cynthia Evans)

Checking of papers

Lunch Break

Afternoon Sessions

Sign-up – Attendance sheet (PM)

Hands-on activities

- Review and complete tables from Day 1
- Create Conversion Table in Excel
- Create Assignment Record in Excel
- Create Class Work Record in Excel
- Create Quiz Record in Excel
- Create Assessment Tables (Pretest & Post-test Item Analysis) in Excel
- Enter pretest data in Assessment table (Item Analysis)
- Enter student data from today's attendance, assignment, class work, and quiz

DAY 3 – TUESDAY

Sign-up – Attendance sheet (AM)

Quiz #2 (coverage – previous day's lessons)

Checking and grading of Quiz #2

Recording of Quiz #2 Results in Attendance Sheet

Text reading & Assignment – Answer the following questions:

- What four types of transactions affect owner's equity?
- How does buying an asset for cash differ from paying an expense?
- Sue Lyon performed legal services for a client today, but agreed to let the client pay her in four equal installments, starting in 30 days. Has Sue earned revenue today or will she earn it when the installments are received? Explain your answer.
- Why is the balance sheet called a snapshot, while the income statement and the statement of owner's equity are called motion pictures?
- How does the account form of the balance sheet differ from the report form?

Lecture/discussion - SLO #7, 8, and 9

- Record business transactions in equation form.
- Identify four types of transactions that affect owner's equity.
- Prepare three basic financial statements.

Class work - Students to work on the financial statements component of Problem 1-5A (Gary Parker, CPA)

Checking of papers

Lunch Break

Afternoon Sessions

Sign-up – Attendance sheet (PM)

Hands-on activities

- Update Attendance Record
- Update Homework Record, with links to relevant SLOs
- Update Class work Record, with links to relevant SLOs
- Update Quiz Record, with links to relevant SLOs
- Add charts below the tables to display assessment results for homework, class works, and quizzes

DAY 4 - WEDNESDAY

Sign-up – Attendance sheet (AM)

Final Exam (Post-test)

Checking and grading of Final Exam

Recording of Final Exam results in Attendance Sheet

Lecture/Discussion – Using e-records to capture and process student performance data, and their application in assessing student learning outcomes

Hands-on activities

- Update Attendance Record
- Update Homework Record, with links to relevant SLOs
- Update Class work Record, with links to relevant SLOs

Lunch Break

Afternoon Sessions

Sign-up – Attendance sheet (PM)

Hands-on activities (continued)

- Create Final Exam Record in Excel
- Enter results in the Final Exam Record
- Create a Grade-to-Date sheet (Summary of students' performance data) in Excel
- Create individual student report sheets in Excel

Student Expectations

On the first day of the workshop, participants were asked, among others, what they expected to learn from this workshop. Their responses, given below, offer opportunities for improvement in the design and implementation of similar events in the future. It appears, for instance, that students who participated in the training have different expectations about the workshop, and some weren't even sure or had no idea about what to expect from the workshop.

Warm-up Question #2

What do you expect to learn from this workshop?

“Since we are majoring in Education, I am expecting to learn how teachers use computer on their daily work as a teacher. For example, I am expecting to learn how teachers make their plans using computers and how to teach student with the help of computer.”

“In this workshop I expect to learn more about using the computer. I have learned the basics of using a computer in High School and in CA100. So I expect to learn some deeper information about using a computer.”

“Everything that expect or important to learn from this workshop.”

“In this workshop I expect to learn how to develop an effective lesson plan.”

“I am expecting to improve my skills in using computer. I am also expecting to learn how to make or collect data using the computer.”

“Well, since I do not know what the workshop is about, I still do not know what to learn and what to expect to learn from this workshop.”

“As I heard that there is going to be a teacher corps workshop, I wondered what is to be about. Then I thought I should learn how I am going to be a teacher.”

“I expect to learn how to put student assessments results in a data, because that is one thing that I surely do not know how to work with.”

“I expect to learn things related to the field which is the major teacher field. Things that we are having trouble in and need help with.”

“I understand that this workshop will full fill my knowledge in using excel.”

“I am not sure what this seminar will be focusing on. I only knew it will be something depending on technology. So I hope and expect to learn more about using computers, using the internet to search for materials, and downloading information from the internet (useful information that will help my students learn, like educational videos and materials.”

“Eventually I am interested to learn anything that is going to be offered. I like the challenge, and expect to learn many things from this workshop.”

“I expect to learn every single thing that this workshop offers me, so that I’ll be able to become a professional teacher in the future. I expect to learn how to write perfect student learning outcomes (SLO) and how to teach them. I expect to learn how to come up with weekly plan and at the same time know which materials to use while delivering my lesson.”

“I expect to learn more on how to be a good teacher in the future, how to handle children with care and love. I am ready to learn a lot from the instructors which will help me in those days to come.”

“Well, I think we will learn more about how to do data on excel. And I think we will learn on how to create a keeping data on excel, like how to save information on the excel.”

“I expect to learn more about computers and how to them.”

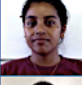

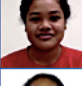

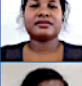

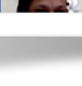

“From this workshop I will be able to use Microsoft word or Excel to enhance my studying skills. I also expect to learn, from this workshop, something that will help me in my future goals, that is to teach.”

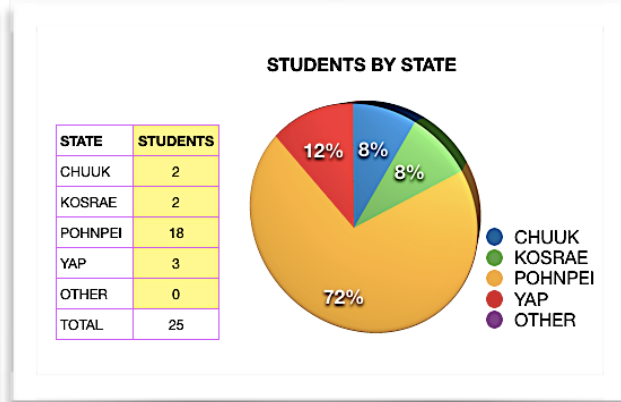

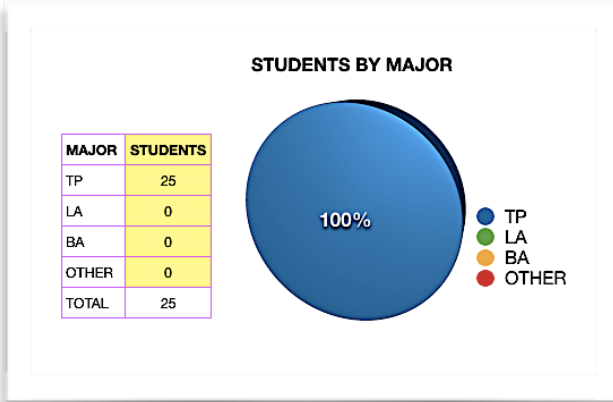

Student Outputs

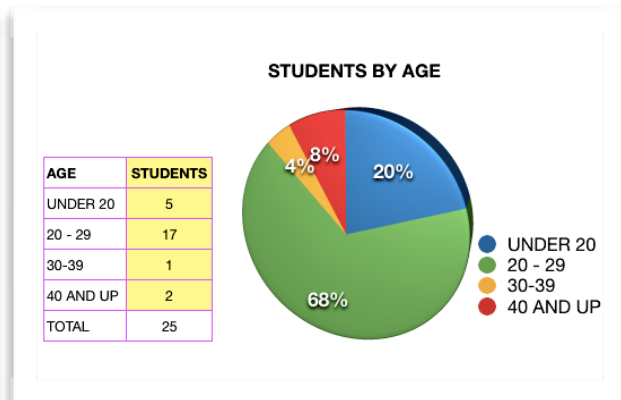

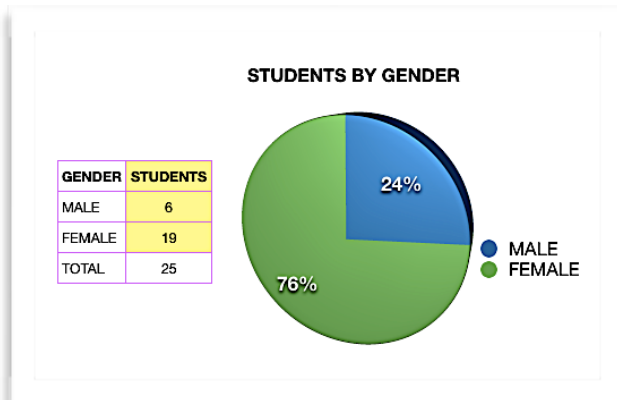

The students’ outputs from the hands-on sessions of the workshop are tangible evidence of how well the students met or achieved specific learning outcomes from the workshop. The outputs presented here are those of the workshop facilitator/trainer, who used Numbers spreadsheet application. Actual outputs from students, who used Excel, may vary in appearance, in part because of the app used as well as the students’ color preferences.

DAY 1 – Student will be able to:

- Create a Students List Table in Excel
 - Add columns for student demographic data
 - Enter student data
- Create Demographic tables and charts in Excel
 - By gender
 - By age
 - My major
 - By state

STUDENTS LIST

DAY 4 (Continued) – Student will be able to:

- Create Final Exam Record in Excel
- Enter results in the Final Exam Record

TEACHER CORPS WORKSHOP 2016 - FINAL EXAM (40%)

NO.	NAME	May 18
1	Abraham, Ashly	67
2	Alexander, Stephanie	56
3	Donre, Winner	42
4	Eliou, Tricia	56
5	Fredrick, Christopher	49
6	George, Saleen	40
7	Gilmete, Jessica	76
8	Gilmete, Nickita	64
9	Ioanis, Eiko	49

25	Yarowe, Christian	73
	AVERAGE	54

HIGHEST	89
AVERAGE	59
LOWEST	33
SUCCESSFUL	6
SUCCESS RATE	26

DAY 4 (Continued) – Student will be able to:

- Create a Grade-to-Date sheet (Summary of students’ performance data) in Excel

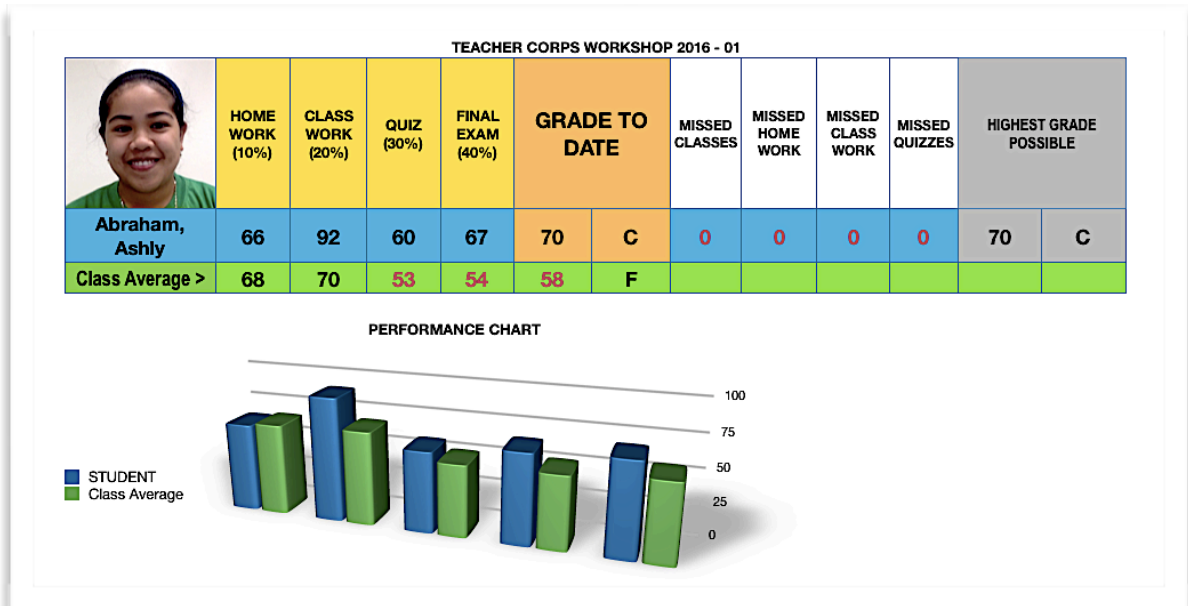

The Grade-to-Date sheet is a summary sheet whose cells are linked to, and therefore automatically picks up and displays information from, the Students List (for the students’ names), Homework Record (for the homework averages), Class Work Record (for the class Work averages), Quiz Record (for the quiz averages), and the Final Exam Record (for the final exam results). Cells in the Missed Classes, Missed Homework, Missed Class Work, and Missed Quizzes also display data already existing in related the records just mentioned. Cells in the Grade to Date (Percent) and (ABC) columns as well as the Highest Grade Possible columns contain formula which calculates and automatically updates students’ grades as new data are entered from time to time.

Data from this sheet are then linked to individual report sheets, presented next, in the remaining pages that follow.
